SUMMARY

Pre-final-year B.Tech Computer Science student (CGPA 8.65) building backend applications with Java, Spring Boot, PostgreSQL, and REST APIs, and deploying with Docker. Built Learn2Debug, a static code analysis platform with a modular, rule-based pipeline, and IntervueX, an AI-assisted interview platform using Next.js and Node.js. Hold Red Hat Linux and Google Cloud generative AI certifications; interested in designing maintainable software and developer-focused tools.

EDUCATION

B.Tech, Computer Science and Engineering – Galgotias University 2024 – 2028 | CGPA: 8.65
Senior Secondary (Class XII) – Premier Pre-University 2020 – 2022 | 92%
Secondary (Class X) – Amrita Vidyalayam 2019 – 2020 | 81%

SKILLS

Languages: Java, Python, SQL, JavaScript

Backend & Databases: Spring Boot, REST APIs, Node.js, PostgreSQL

Frontend: React.js, Next.js, HTML, Tailwind CSS

Tools & DevOps: Git, GitHub, Docker, Linux, npm

AI & Cloud: Google Vertex AI, Multimodal RAG, Prompt Design

PROJECTS

Learn2Debug | Java, Spring Boot, Static Code Analysis June 2026 – Present

- Built a static code analysis platform using Java and Spring Boot that detects common programming errors and explains them in developer-friendly language.
- Designed a modular analysis pipeline covering source preprocessing, code parsing, compiler interaction, and rule-based analysis, keeping each stage independent and easy to maintain.
- Implemented reusable analysis rules that translate compiler-level errors into actionable debugging guidance, making errors easier to understand and fix.

IntervueX | Next.js, React, Node.js, REST APIs, AI August 2026 – Present

- Developed an AI-assisted technical interview platform for interview preparation and evaluation, using a Next.js/React frontend and Node.js backend services.
- Integrated AI-powered features into the application through API calls from the Node.js backend.
- Re-architected the backend to separate core application logic from AI-powered services, improving maintainability and simplifying future integrations.

CERTIFICATIONS

Gemini Multimodality & Multimodal RAG Skill Badge – Google Cloud February 2026
Prompt Design in Vertex AI Skill Badge – Google Cloud February 2026
Red Hat System Administration I (RH124), Ver. 9.3 – Red Hat May 2026
Getting Started with Linux Fundamentals (RH104), Ver. 9.1 – Red Hat May 2026
